Data Transfer

You can transfer music from your computer to the player using the drag-and-drop method or using music management software such as Windows Media Player. You can simply plug it into your computer and copy over media files as if it were a hard drive.

Charge the Player

1. By connecting to a computer with the included USB cable

The USB cable can both be used for data transfer and charging the player.

2. By connecting to a charger(Not included)

Please note: The specifications of the charger must meet the following requirements or any accident or failure happened will be regarded as man-made damage.

Input: AC110-240V 50/60Hz Max:100mA

Output: DC5.0-5.5V 500mA-800mA

Power On/Off

1. Power On: Slide the power switch to "On" position. If the switch is already at "On" position, just press the play button ►|| for 3 seconds.

2. Power Off:

1) Slide the power switch to "Off" position.

2) Press play button ►|| for 3 seconds when the switch is at "On" position.

Note:

1) Please put the power button to "Off" position if you won't use it for a long time.

2) If you cannot switch on the player, please make sure the slider switch is on the right side.

3) When the player is on the music playing interface, if you hold button ►|| to turn off it, next time you switch on the player, it will start from the last position it left off.

Main interface

Each time you press the button ▲/▼/◀◀/▶▶, it will bring you to one of its 9 different functions, including Music, Radio, Folder, Setting, Record, Tools, Pictures, EBook and Video.

While it's on the main interface, press button ►|| to

enter.

Play Music

Find "Music" on main menu, click button  to access to its function. Click button  to choose from the songs, click button  to play.

- All songs — play by name sequence
- Nowplaying — take you back to the song or audio file that you are playing now.
- (Resume) — Choose "Resume" to start playing from where you left off last time.
- Artists — Displays Tracks sorted by Artist
- Albums — Displays all Tracks sorted by Album
- Genres — Displays all Tracks sorted by Genre
- Playlists — 3 playlists
- Update card data — Update local and card folder
